CAREER PLAN B

Why the Parrot?

The Parrot symbolizes today's youth-vibrant, intelligent and full of potential, yet confined by conventional societal expectations, peer pressure, and digital eco chambers. It mimics without meaning, just as students follow pre-defined paths without purpose and critical thinking. The Parrot's legs move forward while the head and eyes are elsewhere, this represents students being forced into a cycle of relentless competition and herd mentality, overshadowing their individuality. Society has ingrained the belief that 'A' is the ideal path-superior, safer, and the only route to success-while 'B' is seen as a fallback, an inferior choice meant for those who couldn't achieve 'A'. Career Plan B challenges this notion proving that an alternative path is not a compromise but an equally valid and empowering route to success on one's own terms.

WHO WE ARE

"A Team Of Passionate Academicians"

"A Not For Profit Venture"

"Experience of 16+ Years"

"Our Motto : Right to Quality Education And Career Hence Quality life"

Bridging the Career Gap

WHY DO WE EXIST

- Nearly 90% of students struggle to make informed career choices due to lack of a structured roadmap, reliable information, and awareness of practical alternatives
- Information overload of unfiltered data leads to confusion and misaligned decisions
- Families often bear emotional and financial stress, Our aim is to simplify career decisions and minimize their burden

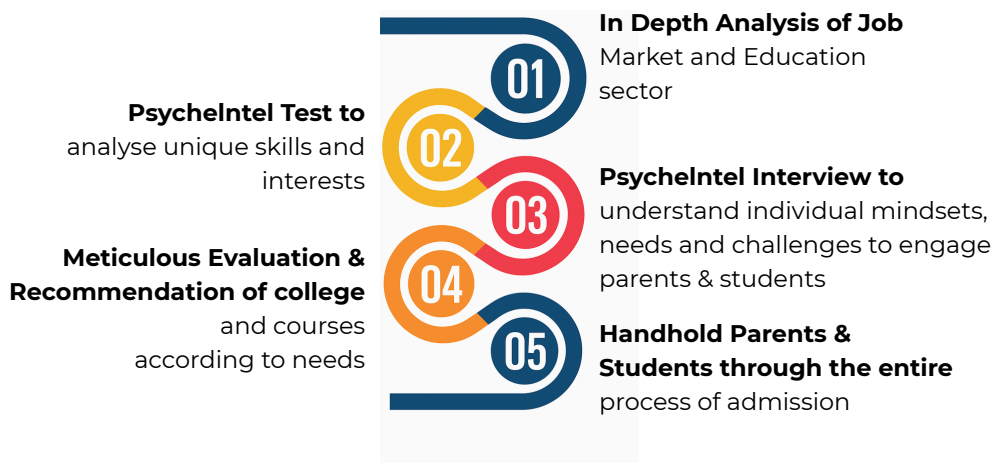

WHAT WE DO

“Research Based Scientifically Validated Personalized Counselling”

“Create Balance Between Economics and Happiness Index”

“We Are Revolutionizing The Way Students Envision And Navigate Their Careers”

HOW WE DO IT? *We do what search engines can't do!*
